OFFICIAL STEP-BY-STEP OPERATIONAL & LOGIC BOOKLET

# SWK Properties OS Complete Workflow & System Logic Guide

A sequential, pin-to-pin visual walkthrough of every module, workflow, user action, and automated business rule inside **SWK Properties L.L.C. Operating System** — from sign-in and property listing to WhatsApp sharing, RERA/DLD compliance, accounting, HR expiry alerts, and automated 1st & 15th monthly target tracking.

| 20 Workflows | 18+ Modules | 100% Automated | UAE Compliant |
|---|---|---|---|
| Step-by-Step Visual Chapters | CRM, RERA, Leasing, Finance & HR | 1st & 15th Target + Doc Expiry Alerts | DLD, RERA, Ejari, Oqood & 5% VAT |

## MASTER EXECUTIVE & ADMINISTRATIVE HIERARCHY

**1. SUPREME OWNER ACCOUNT**

**shabib@swk.properties**

Full unrestricted access (*) across all modules + exclusive supervisory control over `admin@swk.properties` (can suspend, activate, unlock, force sign-out, or reset Admin password). Cannot be modified or deleted by any other user.

**2. FULL SYSTEM ADMIN ACCOUNT**

**admin@swk.properties**

Full operational and administrative access (*) across all 18+ SWK OS departments (CRM, Properties, Mandates, Deals, Finance, HR, Compliance, Studio & Settings), operating under Owner oversight.

MASTER DIRECTORY & SEQUENCE

# 20 End-to-End Workflows — Step-by-Step Index

Every workflow in SWK Properties OS connects into one unified pipeline. Click any chapter below to jump directly to its visual flowchart, annotated screen, action checklist, and backend logic rules:

WORKFLOW 01
**Sign-In Gate, Role Hierarchy & Session Security**
Authentication & Access Control
`/login`

WORKFLOW 02
**All-Apps Launcher Hub & Global Search**
Workspace Navigation & Command Palette
`/home`

WORKFLOW 03
**Executive Dashboard & 10-Step Brokerage Execution Bar**
Executive Command & Analytics
`/dashboard`

WORKFLOW 04
**Daily Operations Master OS — Attendance, Reports & Inventory**
Daily Brokerage Operations
`/enterprise/master-os`

WORKFLOW 05
**Recycle Bin & Legal Hold Protection**
Data Governance & Recovery
`/recycle-bin`

WORKFLOW 06
**Dubai Market Pulse — 24 Areas & 15-Year Forecast**
Market Intelligence
`/market`

WORKFLOW 07
**Properties, Units & Direct WhatsApp Property Sharing**
Property & Inventory Management
`/e/properties`

WORKFLOW 08
**Listing Studio — AI Brochures, Trakheesi Gate & WhatsApp Share**
Portal Syndication & Marketing
`/listings`

WORKFLOW 09
**CRM Leads, Qualification, Sanctions Screening & Conversion**
Customer Relationship Management (CRM)
`/e/leads`

WORKFLOW 10
**Visual Deal Pipeline Board — Off-Plan, Secondary & Leasing**
Deal Execution Pipeline
`/pipeline`

WORKFLOW 11
**Sales & Mandates — Form A, Form B, Form I, Form F (MOU) & DLD Filings**
RERA Mandates & Sales Contracts
`/e/transactions`

WORKFLOW 12
**Tenancy Contracts, Ejari Registration & Renewal Alerts**
Leasing & Property Management
`/e/leases`

WORKFLOW 13
**PDC Cheque Vault — Post-Dated Cheques & Maturity Radar**
Treasury & Rent Collection
`/pdc`

WORKFLOW 14
**Owner 360 — Landlord Portfolios, Net Yields & Payout Statements**
Landlord & Investor Relations
`/owners`

WORKFLOW 15
**Double-Entry Accounting, 50/50 Commission Splits & 5% UAE VAT**
Accounting, Commissions & UAE Tax
`/finance/statements`

WORKFLOW 16
**RERA / DLD Compliance Centre, Sanctions Screening & Tax Calendar**
Regulatory & AML Compliance
`/rera`

WORKFLOW 17

WORKFLOW 18

**Employees, Document Expiry Alerts, Leave Approvals & 1st/15th Target Tracking**
HR, Onboarding, Leave, Leaderboard & Target Automation
`/agents`

**SWK ONE Mobile App, Office Reception QR & Live GPS Site Visits**
Mobile Field Service & QR Check-In
`/swk-one`

**WORKFLOW 19**
**Letter Studio (/studio), Real Estate Calculators (/toolkit) & OCR Vault**
Letter Studio, Calculators & Document Vault
`/toolkit`

**WORKFLOW 20**
**Company Settings, Roles, Nightly Cloud Backups & Audit Trail**
System Administration, Security & Backups
`/admin/settings`

## HOW THE ENTIRE OS CONNECTS END-TO-END (10-STAGE MASTER LOGIC)

**01. Onboard & Verify**
HR adds Staff & Agents · Visa/EID/RERA Card expiry alerts active

**02. Targets Issued (1st)**
Scheduler notifies every agent of their Monthly GCI Target on the 1st

**03. List Property & Form A**
Add Building/Unit + Form A Mandate + Trakheesi Permit

**04. Share on WhatsApp**
1-click bilingual AI brochure sent directly to client's WhatsApp

**05. Capture & Screen Lead**
Lead assigned -> Viewing logged -> AML/Sanctions screened

**06. Execute Deal / Lease**
Form F (MOU) & DLD Transfer OR Tenancy Contract & Ejari

**07. Collect PDCs & Invoice**
PDC cheques vaulted + 5% UAE VAT Tax Invoice posted to GL

**08. 50/50 Commission Split**
50% Company / 50% Advisor share calculated & credited to wallet

**09. Mid-Month Update (15th)**
System sends Achieved vs. Remaining (or +AED Surplus) alert

**10. Leaderboard & Audit**
Live ranking on Leaderboard + Nightly R2 Backup & Audit Trail

# Sign-In Gate, Role Hierarchy & Session Security

How users sign in, how Owner Shabib Siraj (shabib@swk.properties) and Admin (admin@swk.properties) are authenticated, and how sessions & brute-force lockouts work.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Enter Credentials**
User enters corporate email & password on /login

→

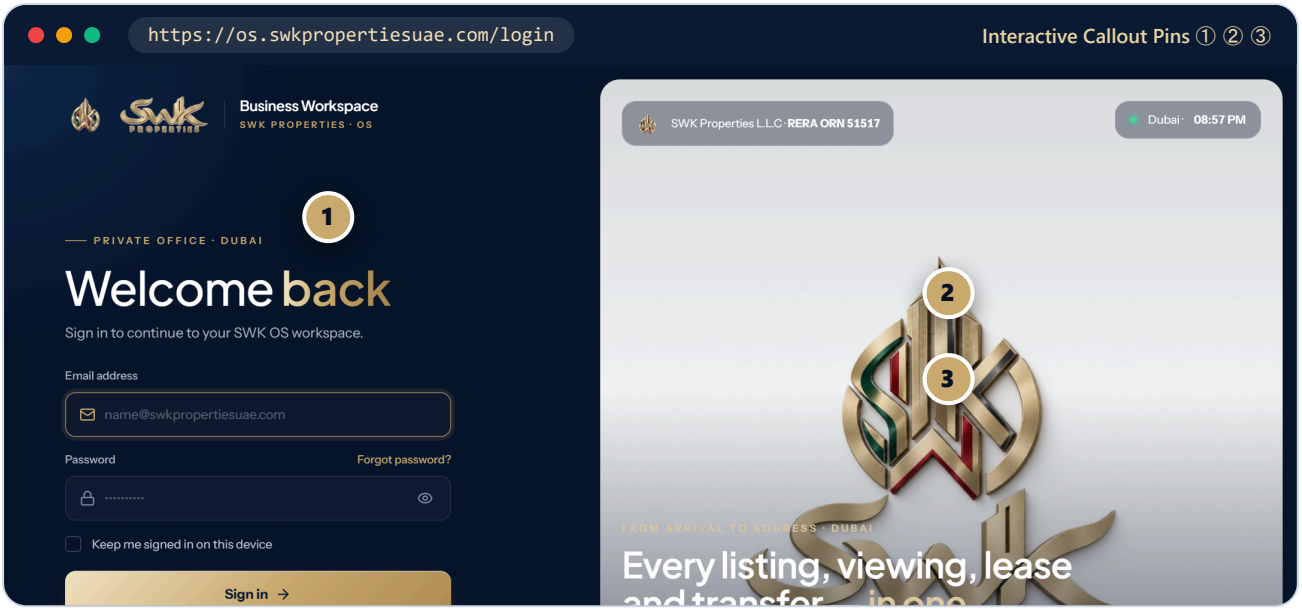

**STEP 2**
**2. Security Verification**
PBKDF2-SHA512 hash check + lockout check (5 failed tries = 15m lock)

→

**STEP 3**
**3. Role & Scope Load**
Loads Role permissions (* for Owner/Admin, scoped for Brokers)

→

**STEP 4**
**4. Session Cookie Issued**
HTTP-only signed cookie + Login Event logged in Audit Trail

**1 Live DLD Market Ticker**
Displays real-time Dubai area PPSF & yield benchmarks on the login screen.

**2 Corporate Email & Password Gate**
Validates credentials against PBKDF2-SHA512 password hashes.

**3 Sign In Action**
Creates an authenticated session, records IP/device in login_events, and routes to /home.

### ✓ WHAT CAN BE DONE IN THIS WORKFLOW

- Sign in as Owner (shabib@swk.properties / Shabib@swk.properties) with supreme authority over the entire OS and over admin@swk.properties.
- Sign in as Admin (admin@swk.properties / Admin@swk.properties) with full operational access (*) across all 18+ modules.
- Sign in as Sales Advisors, Leasing Brokers, HR, or Finance staff with role-scoped data visibility.
- Scan the Office Reception QR code from mobile to sign in and record GPS/Office attendance in a single step.

### ⚙ UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Hierarchy Rule (userHooks): Only Owner (shabib@swk.properties) can suspend, unlock, force sign-out, or reset the password of Admin (admin@swk.properties). The Owner account cannot be deleted or downgraded by anyone.
- Password & Session Rule: Changing a user password automatically invalidates all active sessions and API keys for that user.
- Brute-Force Protection: 5 consecutive failed password attempts lock the account for 15 minutes automatically.

# All-Apps Launcher Hub & Global Search

The central launchpad organising all 12 departments and 75+ operational modules with instant keyboard-driven navigation.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Land on /home**
System filters app tiles dynamically based on user role permissions

→

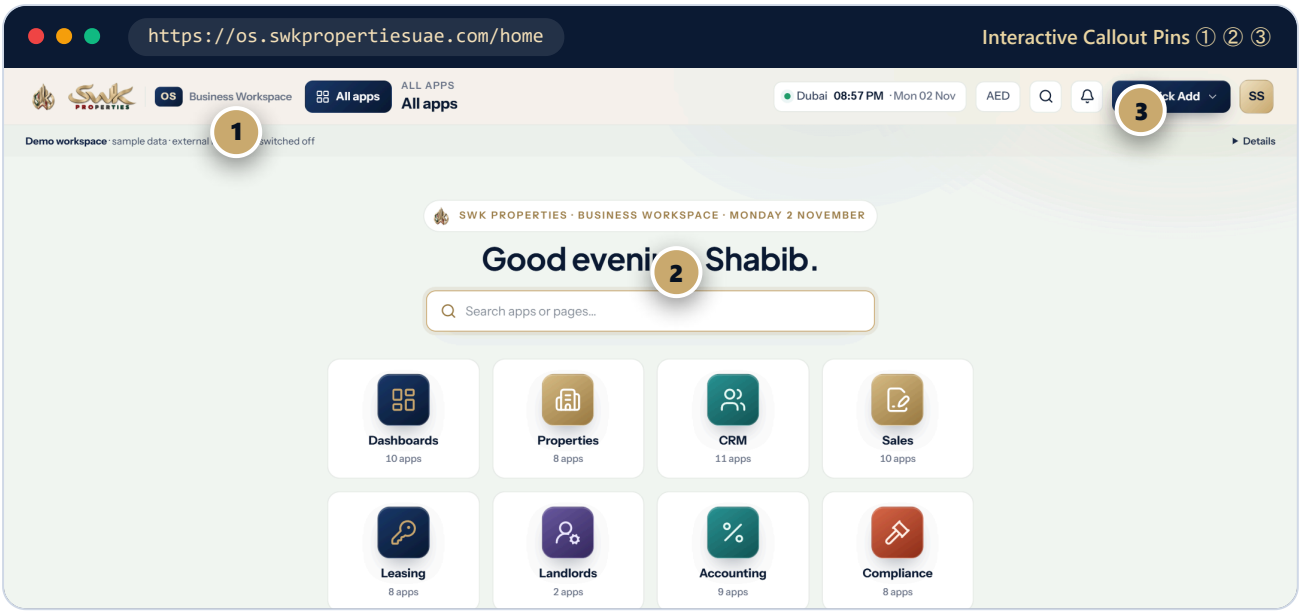

**STEP 2**
**2. Choose Department**
Click any tile across Dashboards, Properties, CRM, Sales, Leasing, Finance, HR

→

**STEP 3**
**3. Global Search (Ctrl+K)**
Search any Deal, Client, Property, Invoice, or Employee instantly

→

**STEP 4**
**4. Notification Bell**
Top-right bell shows live Approvals, Expiries & Target updates

**1 Departmental Sidebar**
Collapsible navigation grouping all modules by real estate workflow.

**2 12-Department App Grid**
One-click tiles for every SWK Properties studio and register.

**3 Live Notification Bell & Profile**
Displays real-time pop-up badges for leave requests, target updates, and expiring documents.

### ✓ WHAT CAN BE DONE IN THIS WORKFLOW

- Launch any of the 12 core departments (Dashboards, Properties, CRM, Sales & Mandates, Leasing, Landlords, Accounting, Compliance, Employees/HR, Field Service, Documents, Settings).
- Use the top search bar to jump to any record by reference number (e.g. JOB-26001, INV-26001, EMP0001).
- Click the Notification Bell to review unread alerts and jump straight to the linked record.

### ⚙ UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Permission Filtering: Modules where the user lacks "view" permission are automatically hidden from both the launcher and sidebar.
- Real-Time Bell Polling: Unread notifications are deduplicated via dedupe_key so users never get spammed with duplicate alerts.

# Executive Dashboard & 10-Step Brokerage Execution Bar

Real-time executive telemetry showing GCI revenue, active pipeline, compliance score, cash flow, and the 10-step brokerage lifecycle.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Live KPI Aggregation**
Aggregates closed deals, active listings, receivables & compliance score

→

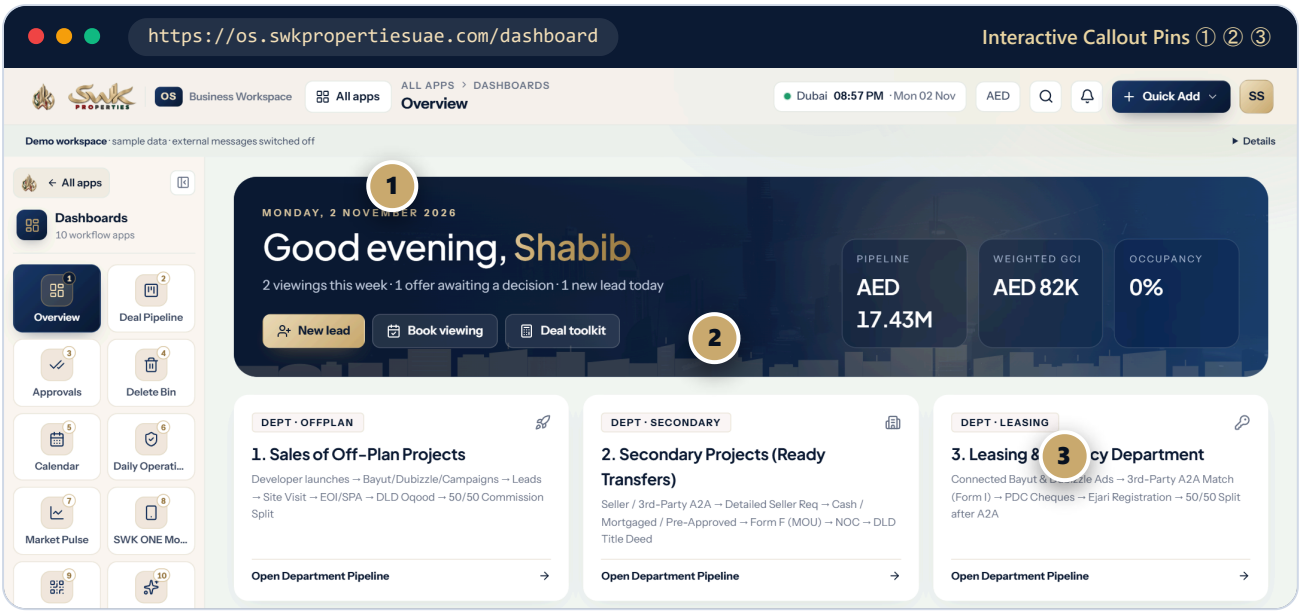

**STEP 2**
**2. 10-Step Execution Bar**
Tracks deals from Lead -> Viewing -> Offer -> MOU -> NOC -> DLD Transfer -> Commission

→

**STEP 3**
**3. Bottleneck Detection**
Flags overdue tasks, unscreened parties, or expiring licences

→

**STEP 4**
**4. Drill-Down Action**
Click any KPI tile or chart bar to open the underlying filtered records

**1 Executive KPI Cards**
Live Gross Commission Income (GCI), Pipeline Value, Active Units, and Net Cash.

**2 10-Step Execution Workflow Bar**
Interactive stage bar showing every step of a Dubai property transaction.

**3 Compliance & Expiry Radar**
Immediate visibility into RERA/DLD status and upcoming deadlines.

### ✓ WHAT CAN BE DONE IN THIS WORKFLOW

- Monitor company-wide revenue, closed deals, active mandates, and collection rates in real time.
- Click any stage in the 10-Step Execution Bar to jump directly to deals currently in that stage.
- Review Owner -> Admin supervisory status and recent system audit events.

### ⚙ UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Live SQL Aggregation: Dashboard numbers are never static — every deal closure, posted invoice, or new lead updates the KPIs immediately.

# Daily Operations Master OS — Attendance, Reports & Inventory

Central command for daily staff check-ins, mandatory end-of-day activity reports, inventory submissions, and owner control.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Morning Check-In**
Staff scan Reception QR or submit Field GPS check-in (10:00 AM shift start)

→

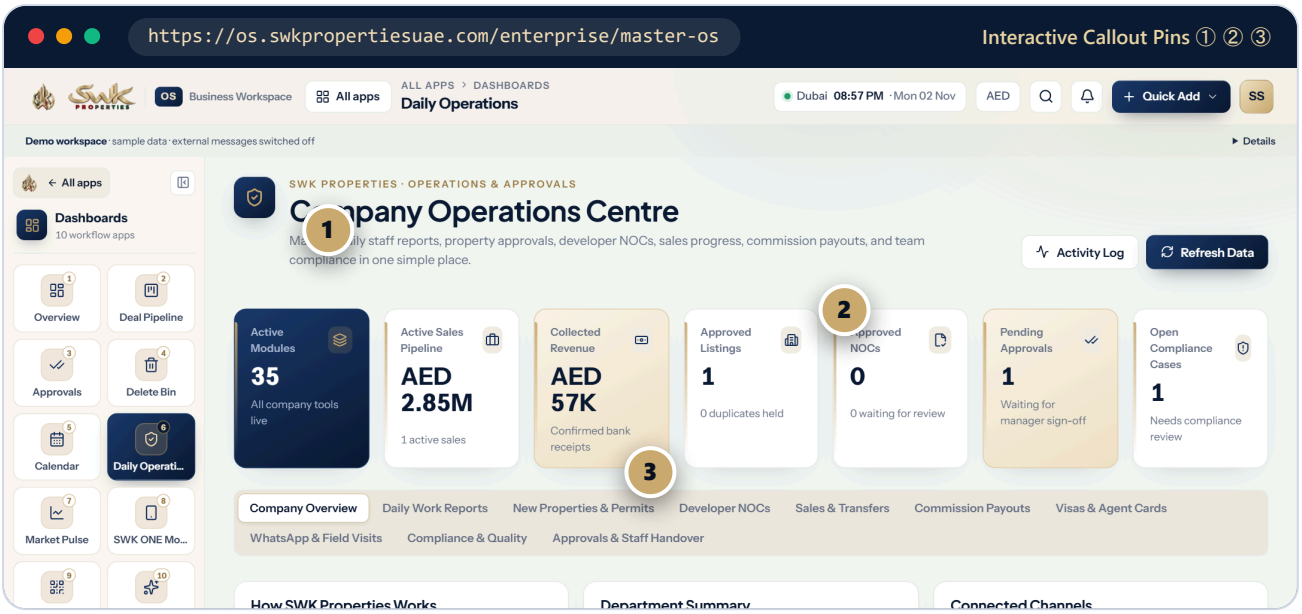

**STEP 2**
**2. Daily Activity Logging**
Brokers log calls, viewings, client meetings & developer requests

→

**STEP 3**
**3. EOD Daily Report**
Mandatory Daily Report submitted before evening check-out

→

**STEP 4**
**4. Owner / Admin Review**
Management reviews attendance, late alerts & daily productivity

**1 Shift & Attendance Monitor**
Tracks Mon-Fri (10:00-19:00) and Sat (10:00-16:00) Dubai shift compliance.

**2 Owner -> Admin Control Panel**
Allows shabib@swk.properties to supervise, unlock, reset password, or sign out admin@swk.properties.

**3 Daily Reports & Inventory Queue**
Verifies daily broker submissions before checkout.

### ✓ WHAT CAN BE DONE IN THIS WORKFLOW

- Verify who is checked in at the office vs. on a live GPS field site visit.
- Submit and review Daily Broker Reports, Inventory Submissions, and Developer Requests.
- For Owner (shabib@swk.properties): Exercise direct one-click supervisory control over Admin (admin@swk.properties).

### ⚙ UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Dubai Shift Logic (computeDubaiShiftInfo): Automatically detects late check-ins after 10:05 AM GST (unless marked Client-Based Variable Hours) and logs rolling late alerts.
- Checkout Guard: Verifies that the broker's daily report is submitted before completing evening check-out.

# Recycle Bin & Legal Hold Protection

Zero-data-loss soft-delete architecture where deleted records are quarantined for Owner review and protected by Legal Hold rules.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. User Deletes Record**
System sets deleted_at timestamp instead of erasing database row

→

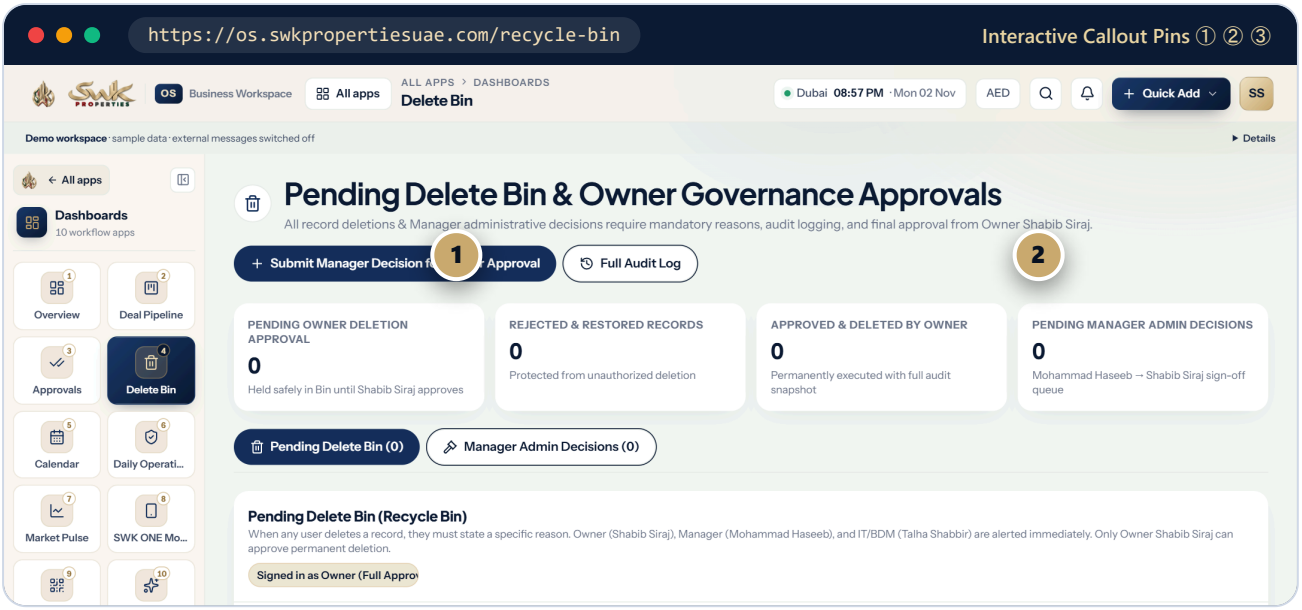

**STEP 2**
**2. Governance Check**
Blocks deletion if record is immutable audit log or under Legal Hold

→

**STEP 3**
**3. Quarantined in Bin**
Record appears in /recycle-bin with who deleted it and when

→

**STEP 4**
**4. Restore or Purge**
Owner/Admin can restore with 1 click or permanently purge

**1 Quarantined Deleted Items**
Shows entity type, record label, deleted timestamp, and user.

**2 One-Click Restore**
Clears deleted_at and restores the record back to its active module.

### WHAT CAN BE DONE IN THIS WORKFLOW

- Inspect every deleted record across all modules in one place.
- Restore accidentally deleted properties, leads, deals, or documents with a single click.

### UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Governance Guard (enforceDeleteGovernance): Immutable audit tables cannot be deleted by anyone. Records linked to an active Compliance Case with legal_hold = 1 are locked against deletion. Ordinary brokers cannot delete customer or lead history.

# Dubai Market Pulse — 24 Areas & 15-Year Forecast

Live Dubai real estate market intelligence covering 24 key communities, price-per-sqft trends, rental yields, and 15-year (2026-2041) catalysts.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Daily 06:00 DLD Sync**
Scheduler updates area benchmarks & market news automatically

→

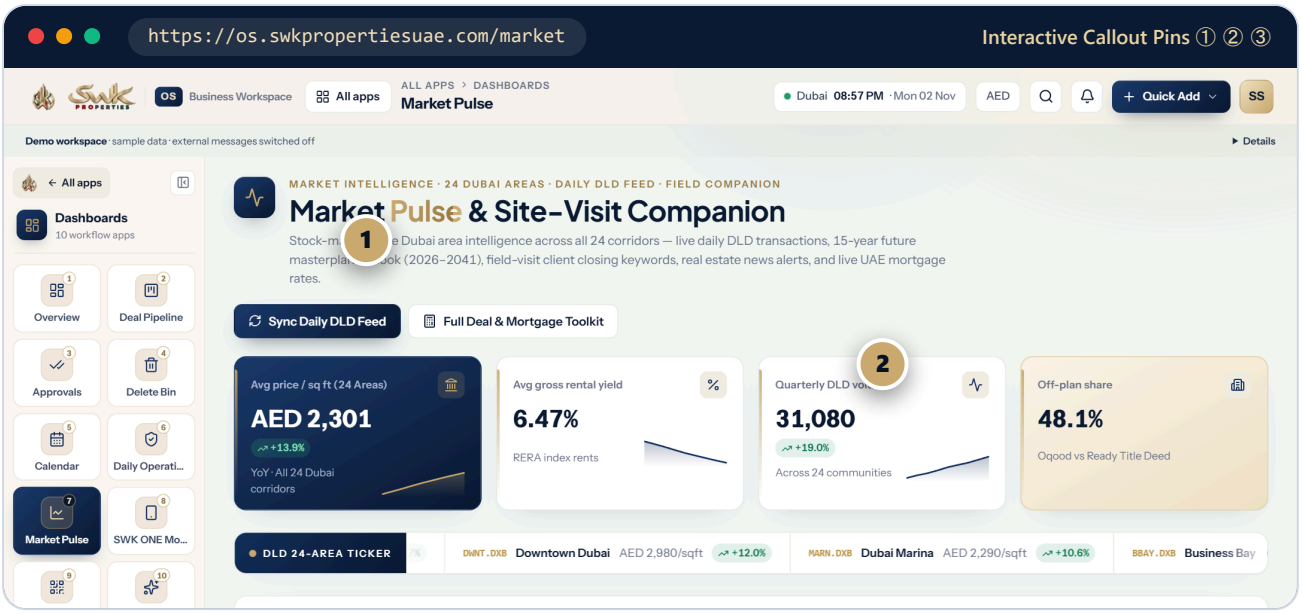

**STEP 2**
**2. Select Community**
Compare Palm Jumeirah, Downtown, Marina, Business Bay, Dubai Hills, etc.

→

**STEP 3**
**3. Review 15Y Forecast**
Inspect projected PPSF (2026-2041), nearby metro/schools & ongoing projects

→

**STEP 4**
**4. Use Pitch Script**
Copy ready-made investor closing scripts & Golden Visa talking points

**1 24 Dubai Area Tickers**
Live PPSF, YoY appreciation %, gross rental yield %, and service charges.

**2 15-Year Growth Trajectory & Pitch Script**
Shows 2026-2041 catalysts and ready-to-use broker pitch scripts for client meetings.

### WHAT CAN BE DONE IN THIS WORKFLOW

- Compare capital growth, rental yields (Studio, 1BR, 2BR, 3BR), and service charges across 24 Dubai communities.
- Use built-in Field Visit Pitch Scripts and Closing Keywords during buyer consultations.

### UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Automated Daily Sync (syncDailyDldTransactionsAndNews): Runs every morning at 06:00 AM GST via scheduler.ts to keep market metrics fresh.

# Properties, Units & Direct WhatsApp Property Sharing

Complete register of buildings, villas, off-plan projects, and individual units with one-click WhatsApp brochure sharing.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Create Property / Unit**
Enter community, developer, beds/baths, area sqft, price & Trakheesi permit

→

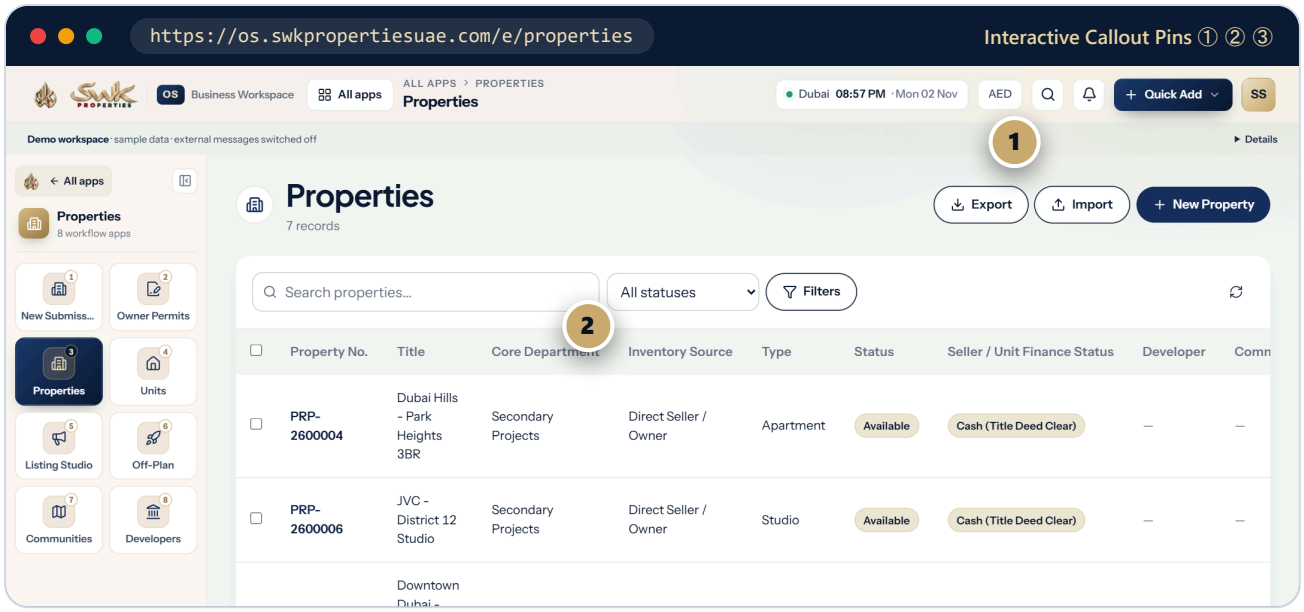

**STEP 2**
**2. Link Owner & Agent**
Assign landlord party_id and DLD-registered listing agent_id

→

**STEP 3**
**3. Click Send to WhatsApp**
Click green Send to WhatsApp button in the top-right action bar

→

**STEP 4**
**4. Instant Client Delivery**
Sends formatted brochure via OS WhatsApp API or opens wa.me chat directly

**1 Send to WhatsApp Action Button**
One-click button on every property record to send formatted property specs to any WhatsApp number.

**2 Property & Unit Register**
Tracks price, area (sq ft), bedrooms, permit number, and availability status.

## ✓ WHAT CAN BE DONE IN THIS WORKFLOW

- Add and manage buildings, villas, townhouses, commercial units, and off-plan inventory.
- Click "Send to WhatsApp" on any property record (/e/properties/:id), enter the client's mobile number (e.g. 0501234567), and immediately dispatch the property details via WhatsApp.
- Track property handovers (/e/handovers), snagging defects (/e/snagging_items), and site visits (/e/property_visits).

## ⚙ UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Phone Normalization Logic: Automatically converts UAE local numbers (05xxxxxxxx) to international format (+9715xxxxxxxx).
- Dual Dispatch Logic: If Meta WhatsApp Cloud API is configured, sends directly from the server and logs in /whatsapp; otherwise opens WhatsApp Web/App (wa.me) pre-filled with the property brochure.

# Listing Studio — AI Brochures, Trakheesi Gate & WhatsApp Share

Marketing studio for Property Finder, Bayut, and Dubizzle syndication, bilingual AI listing copy, and instant WhatsApp brochure sharing.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Verify Trakheesi & BRN**
System checks valid Trakheesi permit + active Agent DLD card

→

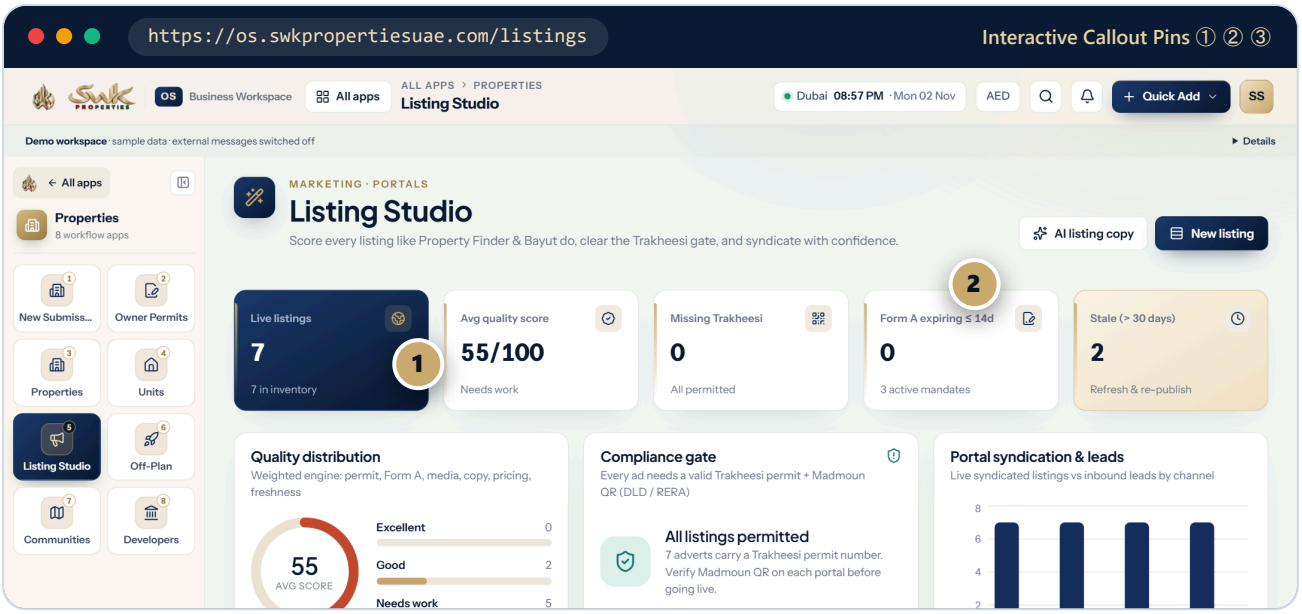

**STEP 2**
**2. Generate Bilingual Copy**
AI generates Luxury, Investor, or Family copy in English & Arabic

→

**STEP 3**
**3. Share to WhatsApp**
Click WhatsApp / Copy on any card -> enter number -> Open WhatsApp or Send API

→

**STEP 4**
**4. Syndicate to Portals**
Publish feed to Bayut, Property Finder & Dubizzle with audit log

**1 Property Cards with WhatsApp / Copy**
Each card has a direct WhatsApp / Copy button to open the bilingual brochure drawer.

**2 Send Listing Directly to WhatsApp Drawer**
Choose Luxury/Investor/Family tone, EN/AR/EN+AR language, and send directly to any client on WhatsApp.

### WHAT CAN BE DONE IN THIS WORKFLOW

- Generate bilingual (English + Arabic) property brochures tailored for Luxury buyers, Yield investors, or Families.
- Send any listing directly to a client's WhatsApp from the Listing Studio drawer.
- Track portal syndication status across Property Finder, Bayut, and Dubizzle.

### UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- RERA Trakheesi Advertising Guard: Automatically flags listings missing a Trakheesi permit or assigned to an agent whose DLD/RERA card is expired.
- Golden Visa Badge: Automatically highlights properties priced at AED 2,000,000+ as eligible for the 10-Year UAE Golden Visa.

# CRM Leads, Qualification, Sanctions Screening & Conversion

End-to-end lead capture, intelligent broker routing, follow-up SLA timers, and one-click conversion into Parties, Opportunities, and Deals.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Lead Captured**
Inbound from Property Finder, Bayut, WhatsApp, Website, or Walk-in

→

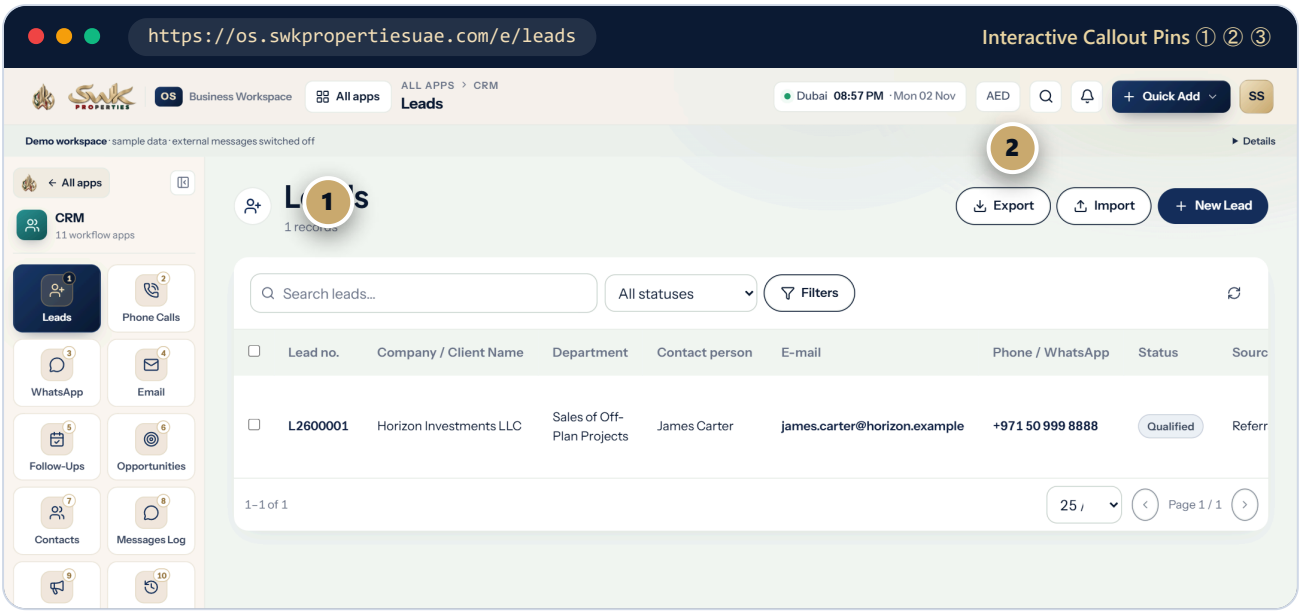

**STEP 2**
**2. Broker Assignment**
Assigned to specialist broker + follow-up task created automatically

→

**STEP 3**
**3. Qualification & Viewing**
Broker logs calls/meetings and schedules accompanied property viewing

→

**STEP 4**
**4. One-Click Convert**
Convert Lead -> creates Party (Client) + Opportunity / Deal File

**1 Lead Stage & Source Filters**
Filter leads by New, Contacted, Viewing Scheduled, Qualified, or Converted.

**2 Convert Lead Action**
Converts a qualified lead into an active Client Party and Deal in one click.

### WHAT CAN BE DONE IN THIS WORKFLOW

- Capture buyer and tenant leads with budget, preferred community, bedroom requirements, and source channel.
- Log phone calls, WhatsApp messages, emails, and video calls (auto-generates Jitsi video link if needed).
- Convert qualified leads into Parties (/e/parties) and Opportunities (/e/opportunities).

### UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Sanctions & AML Check (sanctionsFinding): When a Party is linked to a Deal, the system automatically verifies whether they have been screened against UAE/UN targeted financial sanctions lists within the review cycle.

# Visual Deal Pipeline Board — Off-Plan, Secondary & Leasing

Interactive Kanban pipeline tracking every active deal from initial offer through MOU (Form F), NOC, Escrow, and DLD Title Deed transfer.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Offer Submitted**
Buyer/Tenant offer logged in /e/offers with deposit terms

→

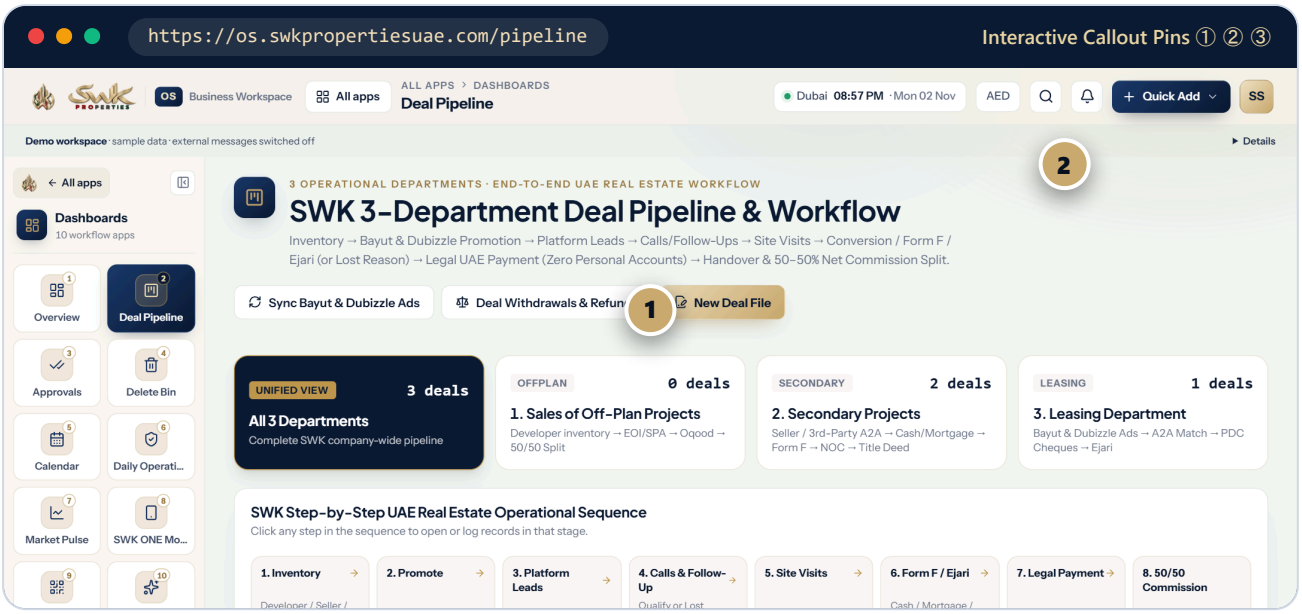

**STEP 2**
**2. Deal File Opened**
Job record (/e/jobs) created with auto-numbered prefix (e.g. DXB-26001)

→

**STEP 3**
**3. Stage Progression**
Move deal across stages: Reservation -> MOU Signed -> NOC -> DLD Transfer

→

**STEP 4**
**4. Deal Closed**
Triggers GCI recognition, 50/50 commission split & tax invoice generation

**1 Kanban Stage Columns**
Visual cards showing deal value, commission %, assigned broker, and days in stage.

**2 Division Switcher**
Filter pipeline by Off-Plan Sales, Secondary Sales, or Leasing.

### WHAT CAN BE DONE IN THIS WORKFLOW

- Track all active deals visually across every milestone.
- Open any deal card to manage its charges, documents, compliance checks, and commission splits.

### UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Pre-Save Compliance Gate (withCompliance): Before a new Deal (jobs) can be saved, the engine automatically verifies: (1) Company Trade Licence, DLD Licence, and RERA registration are not expired, (2) Deal type is within licensed activities, (3) Client is not a confirmed sanctions match, and (4) Assigned Agent's DLD card is valid.

# Sales & Mandates — Form A, Form B, Form I, Form F (MOU) & DLD Filings

Complete RERA statutory contract lifecycle from listing mandate (Form A) to buyer representation (Form B), inter-broker cooperation (Form I), and sale MOU (Form F).

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
### 1. Form A Mandate
Sign landlord listing mandate (/e/mandates) & obtain Trakheesi permit

→

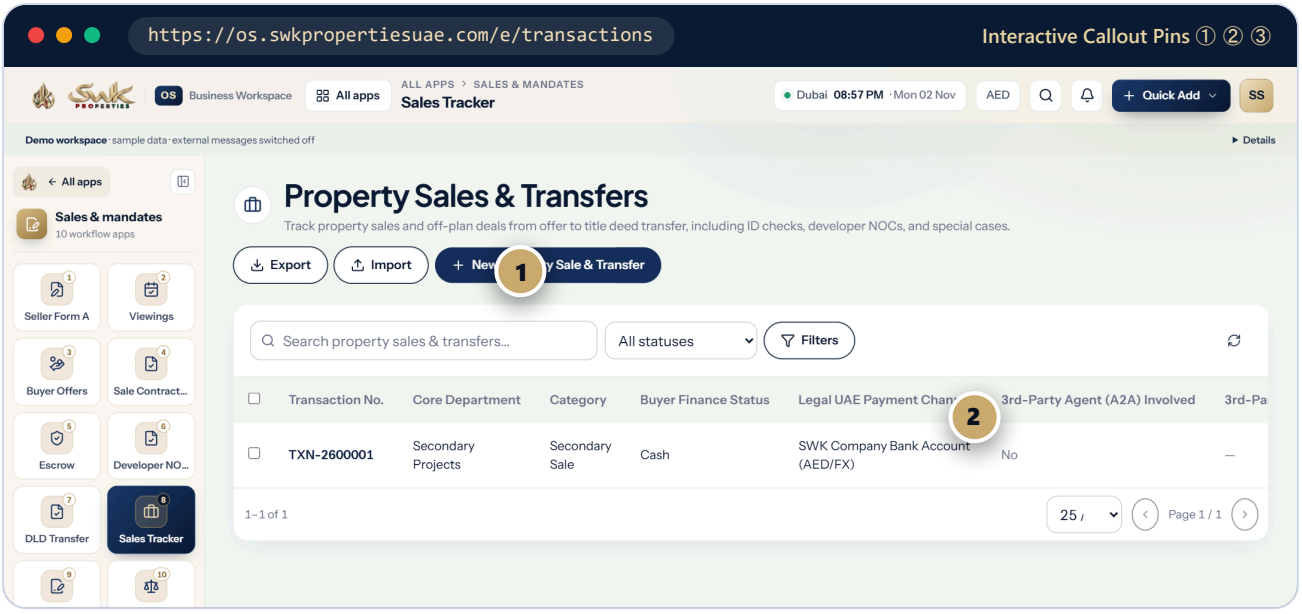

**STEP 2**
### 2. Form B / Form I
Sign Buyer engagement (Form B) and Agent-to-Agent split agreement (Form I)

→

**STEP 3**
### 3. Form F (MOU) & Escrow
Execute Sales Contract (/e/sales_contracts) & log 10% security deposit in Escrow

→

**STEP 4**
### 4. Developer NOC & DLD
Obtain Developer NOC -> complete DLD transfer (/e/dld_filings) -> issue Title Deed / Oqood

**1 Statutory RERA Forms Register**
Tracks Form A, Form B, Form I, Form F (MOU), Oqood (off-plan), and Title Deed references.

**2 Escrow & DLD Filing Tracker**
Monitors 4% DLD transfer fee, trustee office appointment, and escrow disbursements.

## WHAT CAN BE DONE IN THIS WORKFLOW

- Create and track RERA Form A listing mandates, Form B buyer mandates, and Form F (MOU) sales contracts.
- Manage Escrow Accounts (/e/escrow_accounts) and DLD Filings (/e/dld_filings).
- Process Deal Withdrawals (/withdrawals) with full audit trail if a transaction falls through.

## UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Mandate Compliance Hook: Automatically maps Sale mandates to SALES_BROKERAGE and Lease mandates to LEASING_BROKERAGE and verifies party sanctions status before saving.

# Tenancy Contracts, Ejari Registration & Renewal Alerts

Full tenancy lifecycle covering lease drafting, Ejari registration validation, rent schedules, maintenance tickets, and 90-day renewal alerts.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Draft Lease Contract**
Select Unit, Tenant, start/end dates, annual rent & payment frequency (1-12 cheques)

→

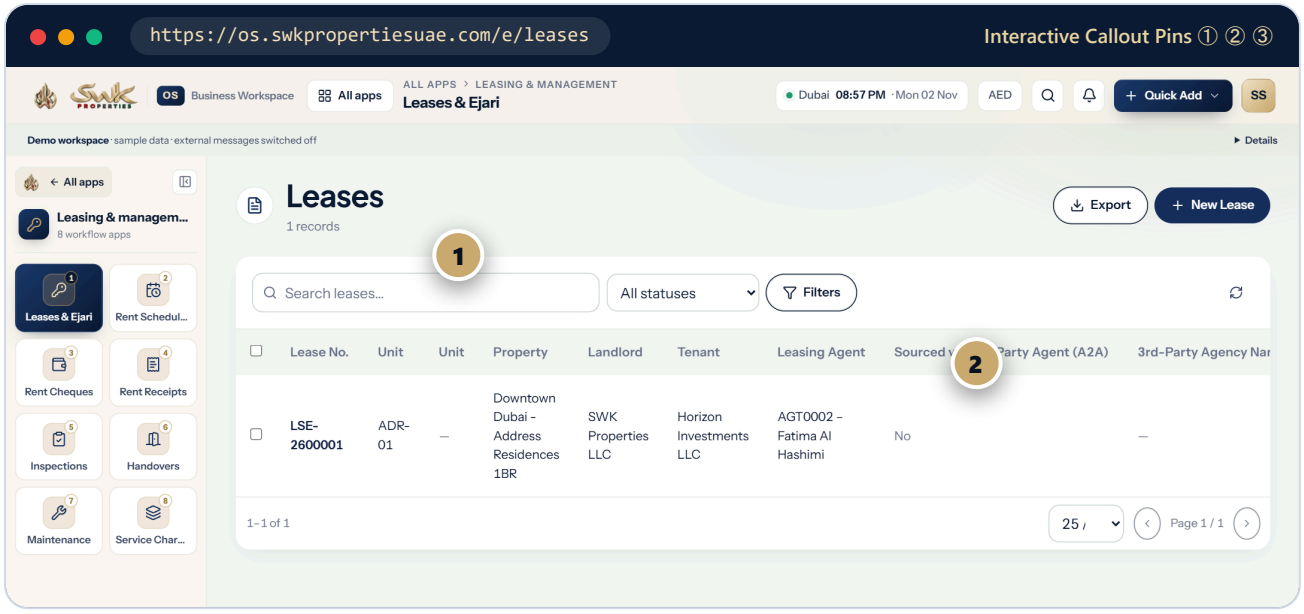

**STEP 2**
**2. Ejari Registration**
Record official Ejari number -> status moves to Ejari Registered

→

**STEP 3**
**3. Rent Schedule & Receipts**
Auto-generates rent instalments (/e/rent_schedules) & receipts (/e/rent_receipts)

→

**STEP 4**
**4. 90-Day Renewal Alert**
Scheduler notifies broker & compliance 90 days before lease expiry

**1 Active & Ejari Registered Leases**
Shows unit, tenant, Ejari number, annual rent, and lease end date.

**2 Automated 90-Day Renewal Window**
Flags leases entering RERA's 90-day rent review and renewal notice window.

### ✓ WHAT CAN BE DONE IN THIS WORKFLOW

- Create residential and commercial leases, generate rent schedules, and issue rent receipts.
- Track property maintenance requests (/e/maintenance), service charges (/e/service_charges), and move-in/move-out handovers (/e/handovers).

### ⚙ UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Ejari Validation Rule (ejariFinding): Blocks marking a lease as "Ejari Registered" unless a valid Ejari number (ejari_no) is recorded.
- 90-Day RERA Notice Automation: Daily scheduler automatically notifies the assigned broker and compliance team for all active leases expiring within 90 days.

WORKFLOW 13 OF 20 TREASURY & RENT COLLECTION Route: `/pdc`

# PDC Cheque Vault — Post-Dated Cheques & Maturity Radar

Dedicated vault for tracking tenant and buyer post-dated cheques (PDCs) from custody through bank deposit, clearance, or bounce handling.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
### 1. Log PDC Cheques
Record cheque number, bank, drawer, maturity date & amount

→

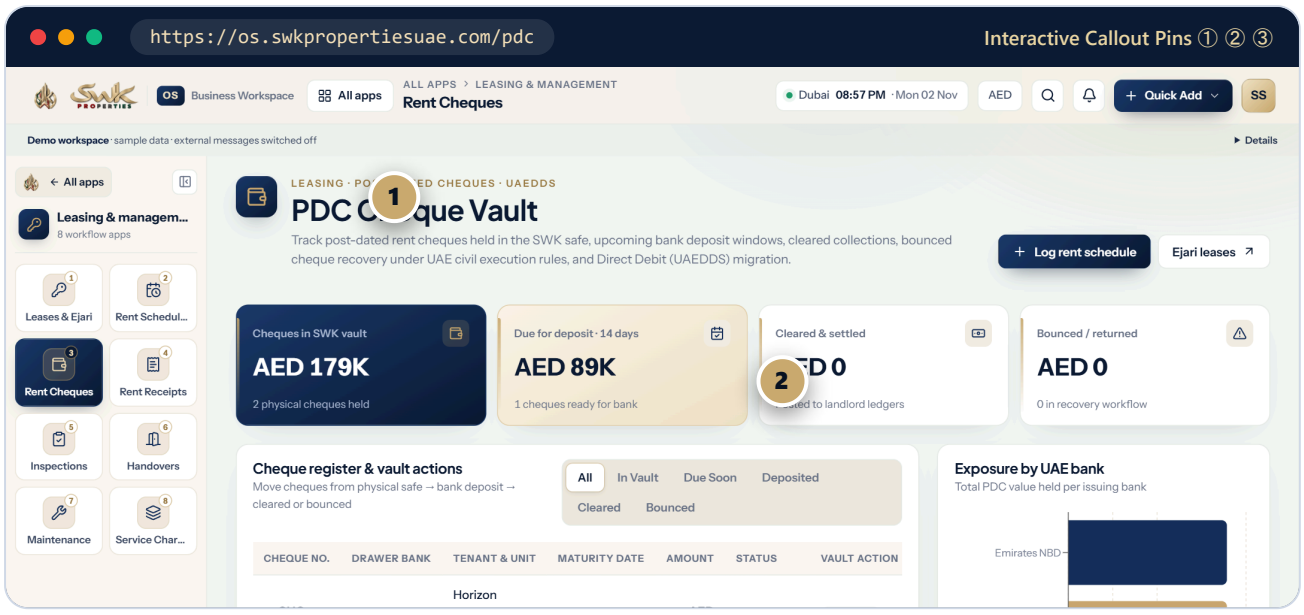

**STEP 2**
### 2. Vault Custody
Cheques held in Vault status; radar highlights cheques maturing in 7/14/30 days

→

**STEP 3**
### 3. Bank Deposit
On maturity date, mark Deposited -> Cleared (auto-posts receipt)

→

**STEP 4**
### 4. Bounce Handling
If dishonoured, mark Bounced -> triggers alert & replacement/legal workflow

**1 PDC Maturity KPI Strip**
Shows total value in vault, maturing within 30 days, cleared, and bounced.

**2 Cheque Lifecycle Status Table**
Tracks each cheque from Received -> In Vault -> Deposited -> Cleared / Bounced.

### ✓ WHAT CAN BE DONE IN THIS WORKFLOW

- Track every post-dated cheque across all managed units and sales deals.
- Filter cheques due for deposit this week so finance never misses a banking date.

### ⚙ UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Automated Arrears & Overdue Alerts: Daily scheduler checks overdue receivables and sends reminders at 10:00 AM GST.

# Owner 360 — Landlord Portfolios, Net Yields & Payout Statements

Complete portfolio view for property owners showing owned units, occupancy rates, gross vs. net rental yields, service charges, and owner payout statements.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Register Landlord Party**
Create Owner profile in /e/parties with KYC, passport/Emirates ID & bank IBAN

→

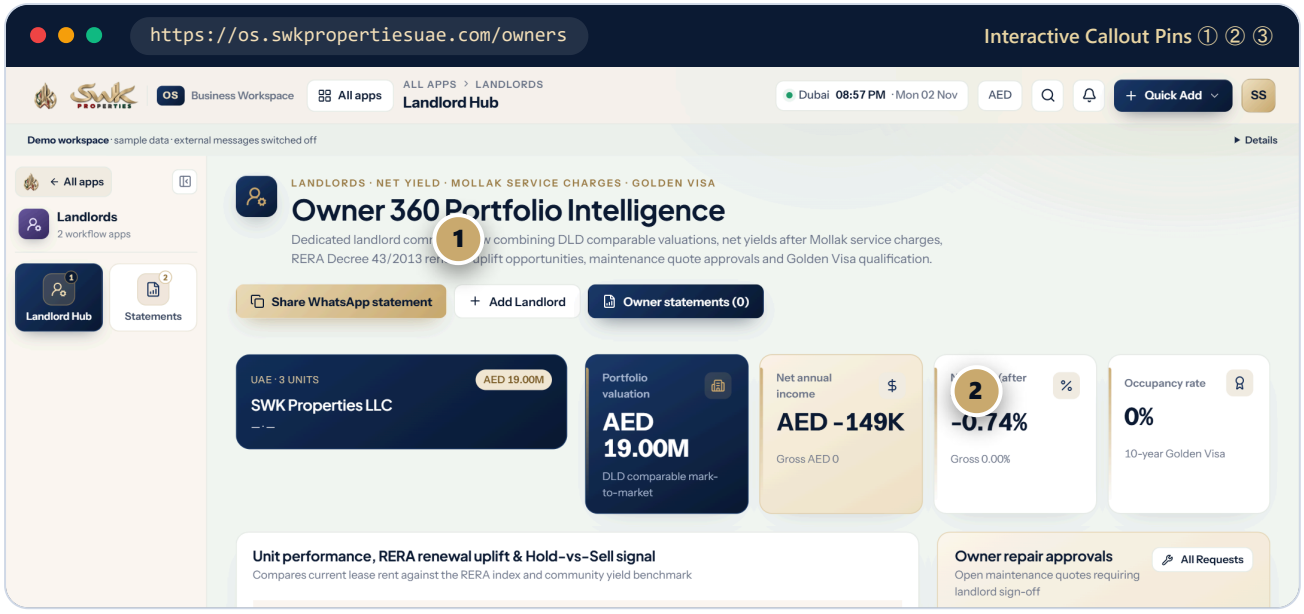

**STEP 2**
**2. Link Properties & Units**
Link landlord's properties, mandates & active leases

→

**STEP 3**
**3. Track Income & Expenses**
System deducts maintenance & service charges from collected rent

→

**STEP 4**
**4. Owner Statement**
Generate net payout statement and transfer net proceeds to landlord IBAN

**1 Landlord Portfolio Cards**
Displays units owned, occupancy %, gross rent, expenses, and net yield.

**2 Unit-Level Yield Breakdown**
Shows lease status and net return per individual apartment or villa.

### WHAT CAN BE DONE IN THIS WORKFLOW

- View all properties, units, active leases, and net yields for every landlord in one screen.
- Provide landlords with optional Customer Portal access restricted strictly to their own properties and invoices.

### UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Portal Isolation Rule (userHooks): Users assigned the "Customer Portal" role are strictly bound to their party_id and can never view any other client's records.

# Double-Entry Accounting, 50/50 Commission Splits & 5% UAE VAT

FTA-compliant accounting engine handling tax invoices, 5% UAE VAT returns, 50/50 broker commission splits, bills, expenses, and live P&L / Balance Sheet.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Issue Tax Invoice**
Create Tax Invoice (/e/invoices) with 5% Standard Rated (SR) VAT

→

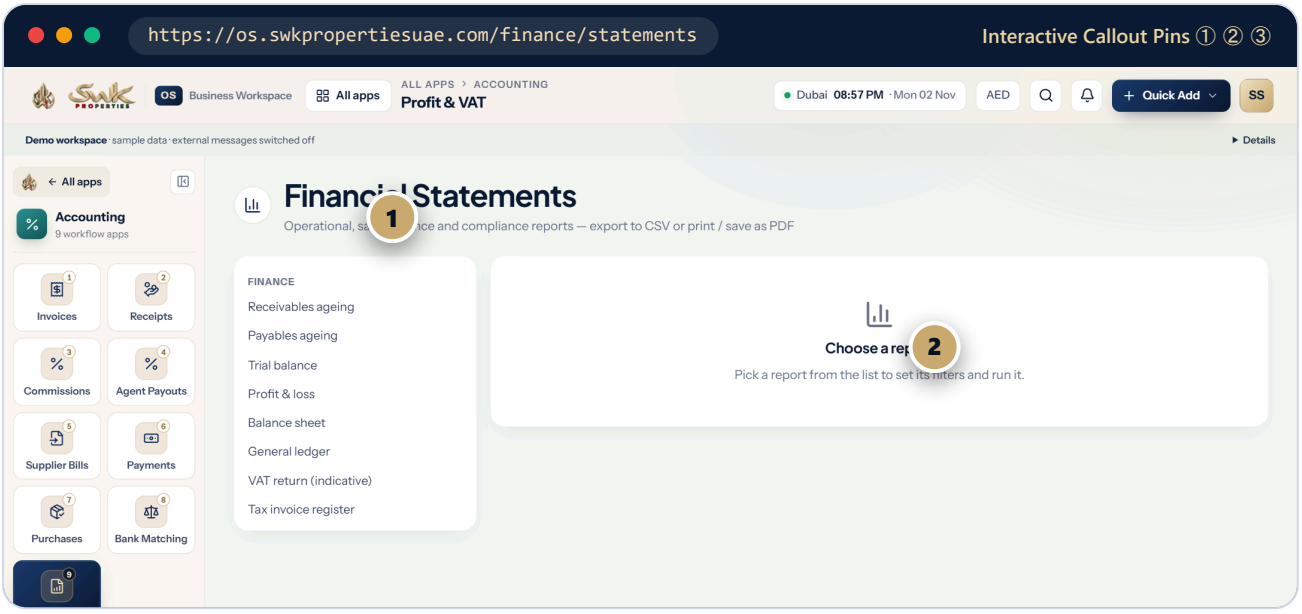

**STEP 2**
**2. FTA Compliance Check**
Verifies 15-digit Supplier TRN, Customer TRN (>= AED 10k) & 14-day supply rule

→

**STEP 3**
**3. Post to General Ledger**
Posting auto-creates balanced double-entry Journal Entries (/e/journal_entries)

→

**STEP 4**
**4. 50/50 Commission Split**
Calculates 50% SWK Properties share & 50% Sales Advisor share in /e/agent_commissions

**1 Live P&L, Balance Sheet & Trial Balance**
Real-time financial statements generated directly from posted journal lines.

**2 UAE 5% VAT & Commission Ledger**
Tracks Output VAT, recoverable Input VAT, and broker commission payouts.

### ✓ WHAT CAN BE DONE IN THIS WORKFLOW

- Create and post Tax Invoices, Proforma Invoices, Credit Notes, Vendor Bills, Receipts, and Payments.
- Calculate and approve 50/50 agent commission splits (/e/agent_commissions) and track Earned, Pending, and Paid commission wallets.
- Generate FTA VAT Returns, AR/AP Ageing Reports, Trial Balance, Profit & Loss, and Balance Sheet.

### ⚙ UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- UAE FTA Tax Invoice Rules (checkInvoicePosting): Blocks posting a VAT invoice if company 15-digit TRN is missing or company is marked not VAT-registered. Warns if Customer TRN/address is missing on invoices >= AED 10,000 or if issued > 14 days after supply date. Requires a reason on all Credit Notes.
- Input VAT Guard (checkBillPosting): Warns if Input VAT is claimed on a vendor bill where the supplier has no TRN on file.

# RERA / DLD Compliance Centre, Sanctions Screening & Tax Calendar

Automated UAE regulatory engine monitoring Trade Licence, RERA ORN, DLD Broker Cards, AML/KYC screening, Corporate Tax, and E-Invoicing deadlines.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
### 1. Live Health Score
Calculates 0-100% compliance score across 9 statutory checks

→

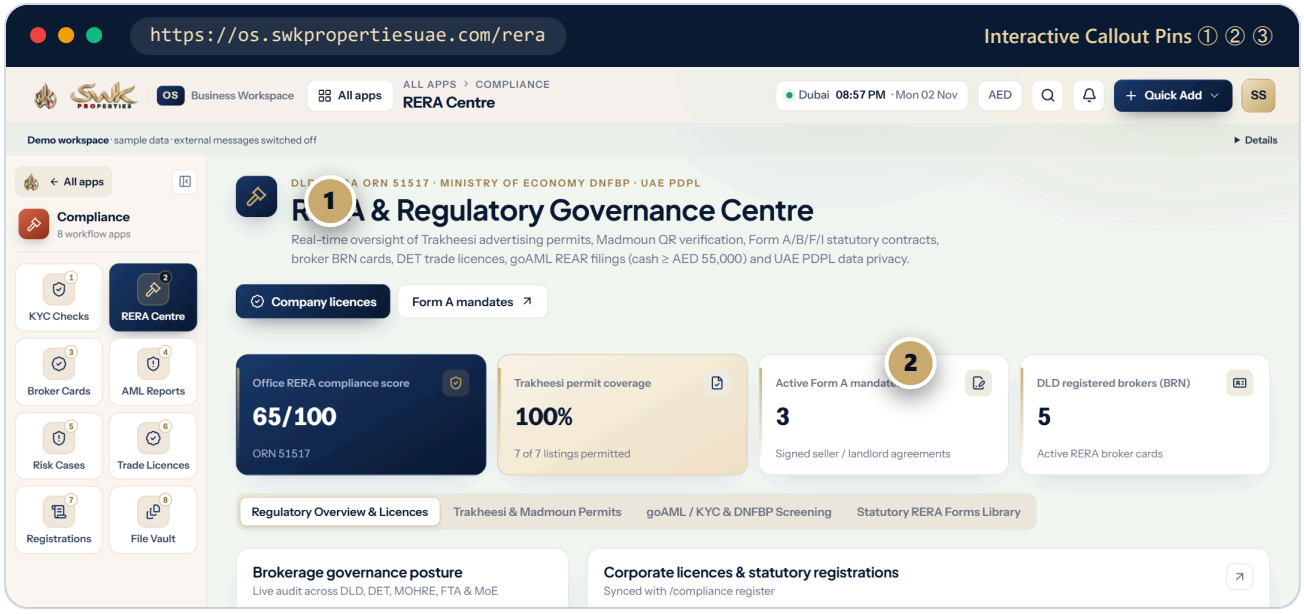

**STEP 2**
### 2. Generate Tax Calendar
Auto-builds quarterly VAT returns (28th), Corporate Tax (9m after FYE) & E-Invoicing dates

→

**STEP 3**
### 3. Screen Parties (AML)
Screen clients against UAE/UN sanctions -> Clear, Potential Match, or Confirmed Match

→

**STEP 4**
### 4. Exception Resolution
MLRO reviews and acknowledges open compliance exceptions with audit notes

**1 Compliance Score & 9 Statutory Checks**
Monitors Trade Licence, DLD Licence, RERA ORN, Escrow, VAT TRN, Agent BRNs, Scope, and Sanctions.

**2 Automated UAE Filing Calendar**
Auto-generates FTA VAT Return, Corporate Tax, Licence Renewal, and MoF E-Invoicing milestones.

### ✓ WHAT CAN BE DONE IN THIS WORKFLOW

- Monitor company-wide RERA, DLD, DET, and FTA compliance in real time.
- Click "Generate Calendar" to automatically populate all upcoming VAT, Corporate Tax, E-Invoicing, and Licence Renewal deadlines.
- Screen parties for AML/Sanctions and manage KYC Checks (/e/kyc_checks) and AML Reports (/e/aml_reports).

### ⚙ UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Enforcement vs. Advisory Mode: In "enforce" mode, any Blocker (expired Trade/DLD/RERA licence, confirmed sanctions match, or expired Agent DLD card) stops offending transactions immediately. In "advisory" mode, blockers are downgraded to logged warnings.

**WORKFLOW 17 OF 20** HR, ONBOARDING, LEAVE, LEADERBOARD & TARGET AUTOMATION Route: `/agents`

# Employees, Document Expiry Alerts, Leave Approvals & 1st/15th Target Tracking

Complete HR & Broker Performance suite covering onboarding documents, automated Visa/ID expiry alerts, leave requests with medical certificates, Leaderboard, and 1st & 15th monthly target notifications.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
### 1. Onboarding & Doc Vault
Add Employee (/e/employees), attach Passport/Visa/EID/RERA Card & set expiry dates

→

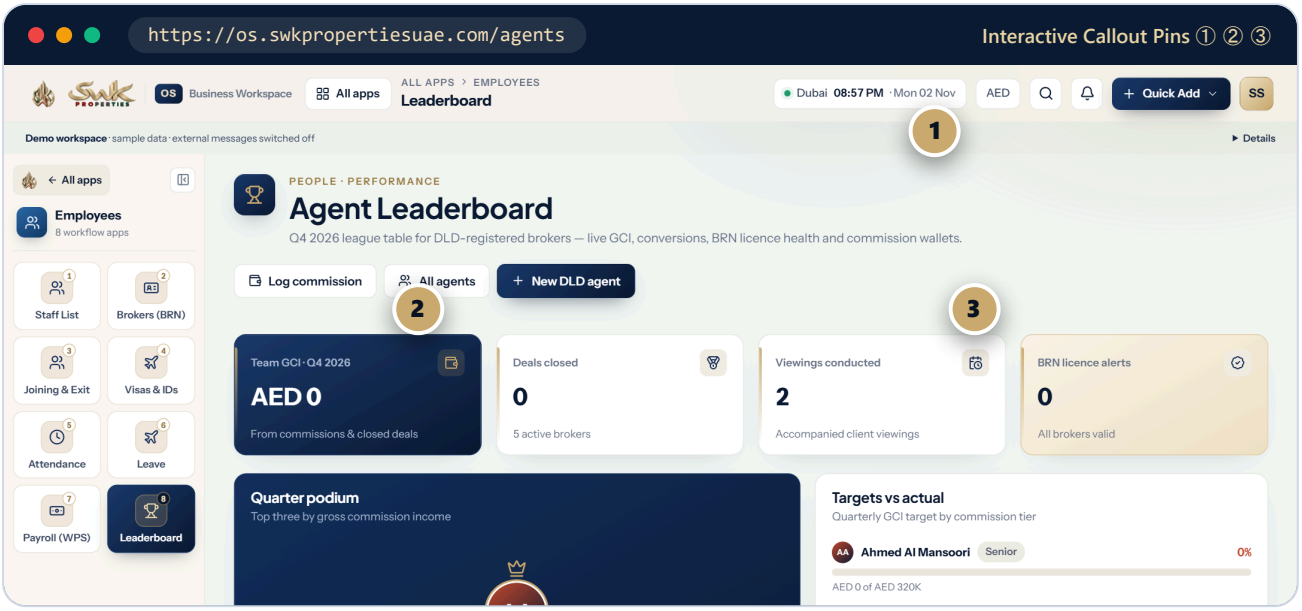

**STEP 2**
### 2. Auto Expiry Alerts
System sends automatic alerts at 60/45/30/21/14/7..0 days before expiry & weekly once expired

→

**STEP 3**
### 3. Leave & Medical Certs
Employee submits Leave (/e/leave_requests) + attaches Medical Cert -> instant pop-up to Manager/Owner -> 1-click Approve/Reject

→

**STEP 4**
### 4. Leaderboard & Targets
1st-of-month Target Alert + 15th Mid-Month Progress/Remaining Alert + Live Dashboard (+AED above target or AED remaining)

**1** **1st-of-Month, Mid-Month & Doc Expiry Triggers**
Automated scheduler + one-click buttons to send 1st-of-month targets, 15th mid-month progress updates, and Visa/Doc expiry scans.

**2** **Quarter Podium & Multi-Metric Leaderboard**
Ranks brokers by GCI (Revenue) with instant toggle for Deals (Closures), Viewings, Conversion %, and Activities.

**3** **Targets vs Actual Dashboard**
Shows attainment % (Red/Amber if below target with AED remaining; Emerald Green if exceeding target with +AED surplus).

## ✓ WHAT CAN BE DONE IN THIS WORKFLOW

- Onboard employees (/e/employees) with organized per-employee Attachment vaults and central Documents Library (/documents) category filters.
- Receive automatic bell notifications when any employee's Residence Visa, Emirates ID, Passport, Work Permit/Labour Card, Health Card, DLD Card, or uploaded document is expiring or expired.
- Submit Leave Requests (/e/leave_requests), upload Medical Certificates for sick leave, receive instant

## ⚙ UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Employee & Document Expiry Engine (checkEmployeeAndDocumentExpiries): Scans employees (visa_expiry, eid_expiry, passport_expiry, work_permit_expiry, health_card_expiry) and attachments (expiry_date) daily and on every save, notifying HR, Compliance, Leadership (Owner/Admin), and the employee.
- Leave Approval Hook (leaveHooks): Validates working days, prevents overlapping leave requests, checks annual

manager/Owner notifications, and approve/reject with one click.

- Track broker rankings on the Leaderboard (/agents) by GCI Revenue, Closures (Deals), Viewings, Conversion %, and updated Activities.
- Manage verified professional skills and regulatory certifications on the Competency Matrix (/competency).
- Automatically notify employees of their Monthly Target on the 1st of each month, and send Mid-Month (15th) updates showing Achieved vs. Remaining (or Surplus).

leave balance, and immediately notifies the employee's manager, HR, and Leadership.

- Target Notification Engine (notifyEmployeeTargets): Automatically sends 1st-of-month target assignments and 15th mid-month progress updates (Achieved GCI, Closures, Attainment %, Remaining to Target, or +AED Above Target).

# SWK ONE Mobile App, Office Reception QR & Live GPS Site Visits

Mobile companion workspace for brokers in the field — supporting Reception QR scan check-in, live GPS site visit verification, key custody logs, and offline sync.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Office or Field Check-In**
Scan Reception QR code at office OR log Live GPS coordinates at project site

→

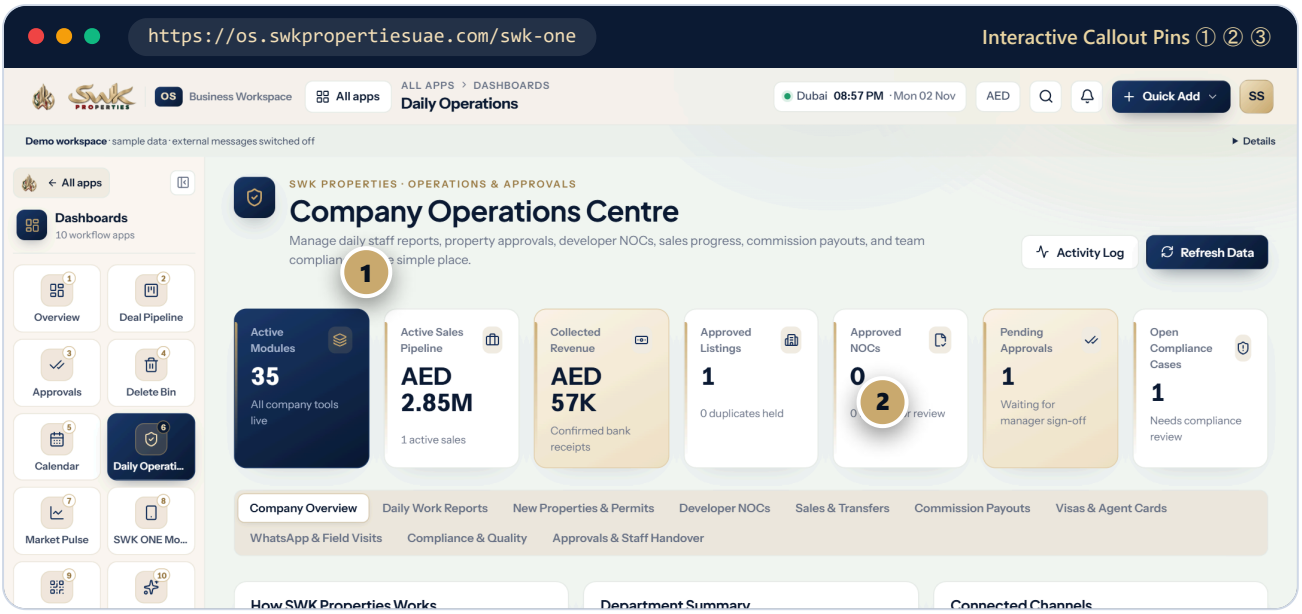

**STEP 2**
**2. Key Custody Log**
Check out property keys/access cards for accompanied client viewings

→

**STEP 3**
**3. Offline Queue Sync**
Log viewings & notes even in basement parking; auto-syncs when back online

→

**STEP 4**
**4. EOD Verification**
Submit daily field summary before checking out

**1 Reception QR & GPS Check-In**
Supports both rotating Office QR codes and GPS-verified field site visits.

**2 Property Key Custody & Offline Sync**
Tracks key check-out/return and idempotent offline action syncing.

### WHAT CAN BE DONE IN THIS WORKFLOW

- Display or print the Office Reception QR code (/reception-qr) for staff morning check-in.
- Check in from developer showrooms or client viewings using Live GPS mode.
- Log property key handovers and accompanied site visits from any smartphone.

### UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Idempotent Offline Sync (offline_sync_queue_log): Uses unique idempotency keys so mobile actions queued offline are replayed safely without duplicate records.

# Letter Studio (/studio), Real Estate Calculators (/toolkit) & OCR Vault

Corporate correspondence generator on official SWK Properties letterhead with AI drafting/translation, plus instant UAE DLD 4%, Mortgage, ROI Yield, and Commission Split calculators.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Open Letter Studio (/studio)**
Pick from 40+ HR, Sales, Leasing, NOC, Offer Letter & MOU templates

→

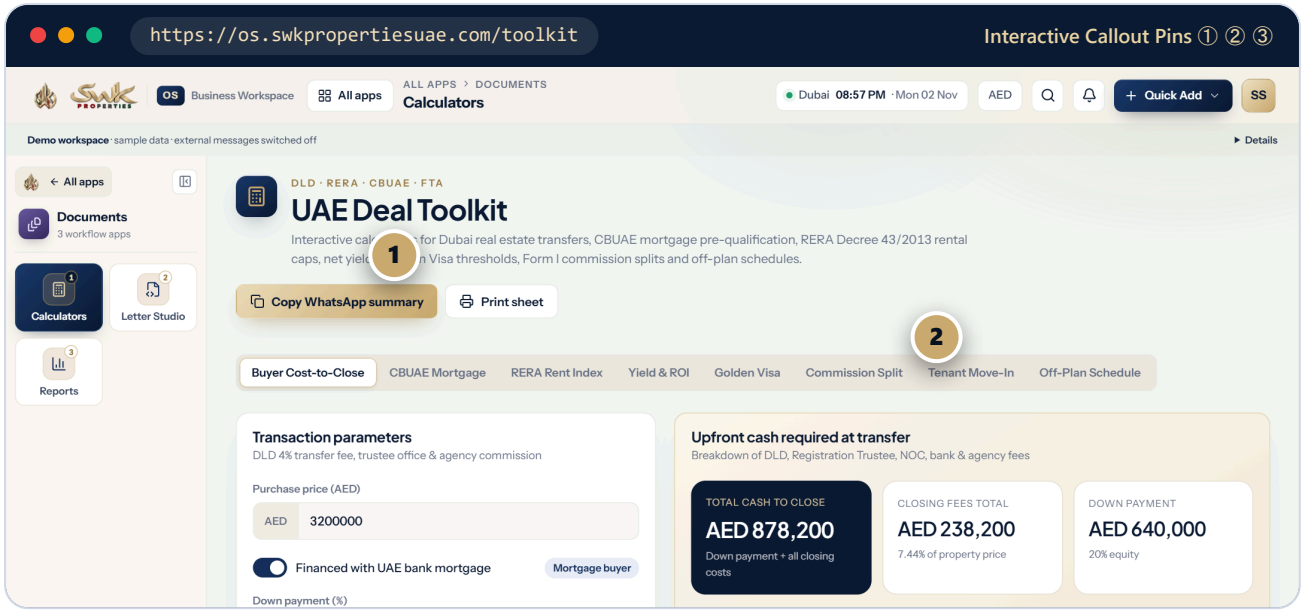

**STEP 2**
**2. Auto-Fill & AI Draft**
Link Client/Deal to auto-fill tokens + use AI to Draft, Formalize, or Translate (EN/AR)

→

**STEP 3**
**3. Print PDF or Email**
Export on official SWK Properties A4 letterhead with digital seal or email directly

→

**STEP 4**
**4. Financial Toolkit (/toolkit)**
Run instant 4% DLD Fee, UAE Mortgage, Net Yield & 50/50 Split calculations

**1 UAE Real Estate Financial Calculators**
Instant 4% DLD Transfer Fee, Mortgage LTV, Gross/Net Rental Yield, and Commission Split calculators.

**2 Letter Studio & Document Library**
40+ corporate templates with AI writing assistant, Arabic translation, and official SWK seal.

### ✓ WHAT CAN BE DONE IN THIS WORKFLOW

- In Letter Studio (/studio): Generate NOCs, Offer Letters, Salary Certificates, Experience Letters, Warning Letters, LOIs, Reservation Letters, and Client Notices on official SWK Properties letterhead.
- Use the AI Assistant inside Letter Studio to draft letters from a prompt, improve tone, proofread, or translate between English and Arabic.
- In Financial Toolkit (/toolkit): Calculate 4% DLD fees + trustee fees, monthly mortgage payments, service-charge-adjusted net rental yields, and broker commission splits.

### ⚙ UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Token Merge Engine (mergeCompanyTokens & fillPlaceholder): Automatically replaces {{client.name}}, {{deal.job_no}}, {{company.name}}, {{today}}, and financial tokens with live database values.

# Company Settings, Roles, Nightly Cloud Backups & Audit Trail

Master configuration for company licence details, role permissions, custom fields, workflow automation rules, nightly R2/database backups, and immutable audit logs.

## STEP-BY-STEP WORKFLOW SEQUENCE

**STEP 1**
**1. Configure Company & TRN**
Set DET Trade Licence, RERA ORN, 15-digit VAT TRN & Compliance Mode

→

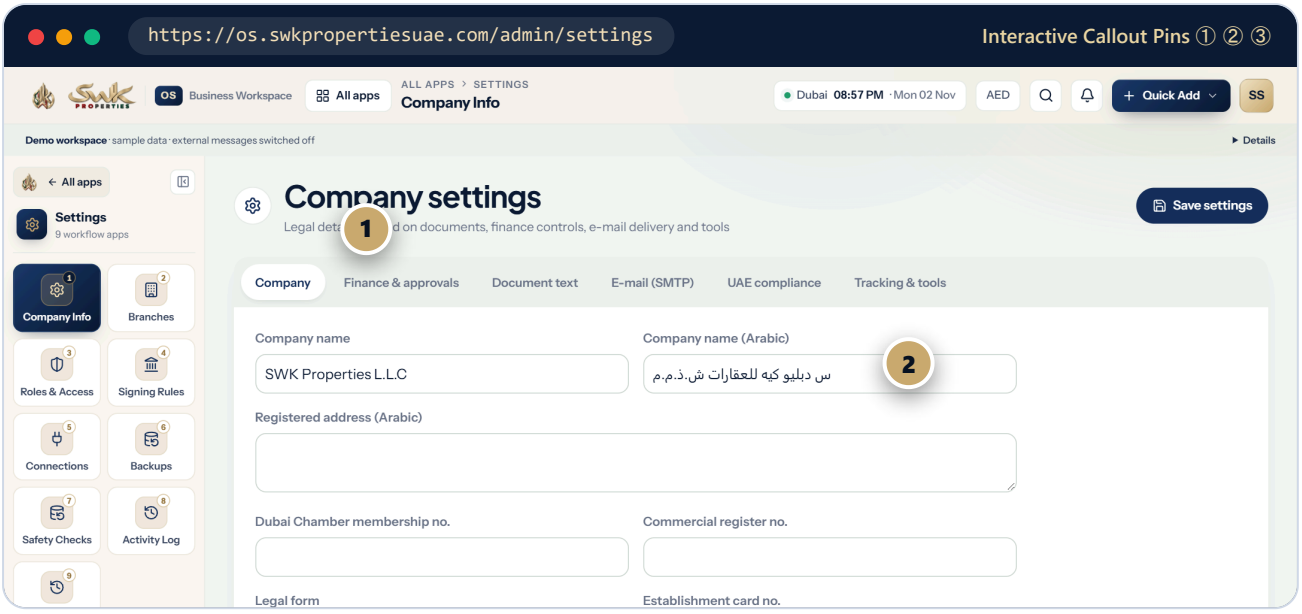

**STEP 2**
**2. Manage Users & Roles**
Create staff accounts (/e/users) & granular module permissions (/e/roles)

→

**STEP 3**
**3. Automation & Webhooks**
Define trigger->action rules (/e/automation_rules) & outbound webhooks

→

**STEP 4**
**4. Nightly Backup & Audit**
Automated 02:00 AM backups (14-day retention) + every change logged in Audit Trail

**1 Corporate & Regulatory Settings**
Configure Trade Licence, RERA ORN, VAT TRN, SMTP Email, WhatsApp API, and R2 Backups.

**2 Role Matrix & Immutable Audit Log**
Granular module permissions (view, create, edit, delete, approve, export) and full change history.

### ✓ WHAT CAN BE DONE IN THIS WORKFLOW

- Manage users (/e/users), roles (/e/roles), branches (/e/branches), and departments (/e/departments).
- Create custom fields (/e/custom_fields) and no-code workflow automation rules (/e/automation_rules).
- Trigger one-click database backups or restore from backups, and inspect the complete Audit Log of every action taken in the OS.

### ⚙ UNDERLYING SYSTEM LOGIC & AUTOMATED RULES

- Privilege Escalation Guard (permissionsWithin): No user can ever grant a role or permission they do not hold themselves. System roles cannot be deleted.
- Nightly R2 Backup Scheduler: Runs automatically between 02:00 and 05:00 AM GST, uploads encrypted snapshots to Cloudflare R2, and prunes local backups older than 14 days.
